DIRECT LINK SERIES SPEAKER CABLE

HARMONIC
HARMONY

The Direct Link Series is the ultimate choice for those seeking unparalleled performance in audio cables. It stands out as one of the few cables that can deliver exceptional levels of transparency, focus, and tonal richness. With its ultra-fast transient speed and expansive soundstage, it transports you to the world of live music, making your audio experience truly extraordinary.

Specifications:

- Four 10 AWG ultra-pure Copper conductors with individually coated strands.
- Precision PE insulation manually inserted for an air dielectric effect, enhancing signal purity.
- Copper braided shield for robust RFI and EMI protection, ensuring crystal-clear sound.
- Ultra-low inductance construction for optimal audio performance.
- Cotton sleeve for vibration absorption, delivering a cleaner and more refined audio experience.
- An extra ground lead for seamless connection to the EHD Ground, further elevating your audio quality.

HARMONIC
HARMONY

Experience the extraordinary with our Direct Link and Rhapsody Series Power Cable. The journey begins with the commanding and robust bass that sets the stage. As you listen, you will discover the remarkable transparency, lightning-fast transient response, exquisite micro-dynamic resolution, and an unrivaled sense of coherence that breathes life into every note. The result is a natural timbre and a 3D soundstage that feels remarkably real.

Specifications:

- A robust 10 AWG ultra-pure Copper conductor with individually coated strands.
- Precision PE insulation, meticulously inserted to create an air dielectric for pristine sound.
- Ultra-low inductance construction and minimal capacitance between live and ground, ensuring lightning-fast transients and minimal distortion.
- A cotton sleeve for effective vibration absorption.
